MBA IN FINANCE

ABOUT OUR MBA PROGRAMS

The MBA programs of KBTU Business School are aimed at educating and preparing students for leadership positions. We encourage global vision and an understanding of transnational culture, and our graduates are capable of finding both creative and rational solutions to the challenges of doing business in today's complex interconnected world. Our graduates develop awareness of how to effectively manage businesses of any size from a start-up to the transnational public corporation and implement strategies that lead their companies to success.

These MBA programs are designed for both experienced practitioners aspiring to revitalize their careers and young professionals aspiring to build their careers. The program is structured to provide students with advanced business knowledge in various functional areas, before focusing on developing cutting-edge leadership and strategic-level decision making skills.

MBA IN FINANCE

The MBA in Finance program is aimed at preparing students for successful careers in financial and investment decision makings. The specialized areas of study include Corporate Finance, Investment Management and Financial Institutions Management.

ADVANTAGES OF KBTU MBA PROGRAMS

- Curriculum with solid foundation and specialized knowledge
- International pool of faculty with high academic qualifications and professional experience
- Professional networking opportunities
- Study and work concurrently - integrating your experience and widening your business horizons

BLOOMBERG FINANCIAL LAB

- KBTU was the first university in Kazakhstan to install Bloomberg Professional, a global platform for real-time data and analytics used worldwide by financial professionals in banks, investment companies and corporate departments.
- The Bloomberg Financial Lab's main goal is to help our students, faculty and researchers advance using real-life cases, actual data and advanced analytics on global financial markets, macroeconomics, and the world's corporate base.
- The cutting-edge capabilities of the Bloomberg Financial Lab help us prepare uniquely trained specialists and researchers ready to succeed in the variety of fields from banking to logistics to engineering.
