KBTU-EADA EXECUTIVE MBA

ABOUT OUR MBA PROGRAMS

Executive MBA programs at the KBTU Business School are aimed at educating and developing the international business leaders of tomorrow. Our graduates possess a global vision and transnational culture and are capable of finding both creative and rational solutions to the complex challenges of doing business in today's complex world. They know how to effectively manage businesses of any size from a start-up to a transnational public corporation and implement strategies that lead their companies to success.

Our Executive MBA programs are designed for both experienced practitioners wishing to revitalize their careers and younger professionals aspiring to build their careers. The programs are structured to provide participants with advanced business knowledge in various functional areas, cutting-edge leadership, strategic-level decision making skills and specialized knowledge.

KBTU-EADA EXECUTIVE MBA

The Executive MBA is the product of a unique international partnership with one of the leading Business Schools in Europe - EADA, Barcelona, Spain. The program brings together a global knowledge pool to benefit participants and contribute to the further development of their careers, equipping them with global vision and the most advanced international tools and ideas.

ADVANTAGES OF KBTU - EADA EXECUTIVE MBA PROGRAM

- Obtain an international study experience in Barcelona, Spain;
- International pool of faculty from both KBTU and EADA with high academic qualifications and professional experience;
- Progressive curriculum with solid foundation, specialized and integrative knowledge;
- Study and work concurrently, immediately integrating your learning with your working experience;
- Professional networking opportunities and access to seminars, conferences, workshops and other international events.
